WE DELIVER FREE

To any post office in the United States all Flower and Vegetable Seeds in packets, ounces, and quarter pounds, at catalogue prices.

When Seed by the pound, and Peas, Beans, and Corn, by the quart and upwards, are ordered to be sent by mail, 8c. per pound and 10c. per quart must be added for postage. Canadian shipments require double that amount for postage.

When sent by freight or express, purchaser pays transit charges on all Seeds in bulk, Fertilizers, Insecticides, and Greenhouse and Garden Supplies, except where otherwise noted.

We make no charge for boxes, packing, or cartage, except where Peas, Beans, and Corn, and Grass Seed are ordered in large quantities, when 25c. extra must be added for every two bushels to cover cost of bags.

New customers, unknown to us, who desire to open accounts, must give satisfactory references as to their responsibility.

Orders from unknown purchasers, unaccompanied by remittance or satisfactory references, will be shipped by express C. O. D.

Customers who remit cash with order may deduct five per cent. for cash.

Remittance can be made with perfect safety by check, post office or express money order, or cash can be sent in registerel letter; fractional parts of a dollar in postage stamps.

Cash should never be sent in unregistered letter. Under no circumstances will we assume any responsibility for the safe carriage of money sent in unregistered letters.

Our seeds are tested seeds of the very best quality obtainable, and our prices are fixed at the very lowest rates consistent with high quality. While we exercise the greatest care to have all our seeds pure and reliable, we give no warranty expressed or implied, and will in no way be responsible for the crop. If purchaser does not accept our goods on these conditions, they must be returned at once.

This strain comprises the largest variety and widest range of color and size, containing all the very richest strains of Mammoth Butterfly, Giant Ruffled and Mottled, Giant Five-spotted, Parisian, and Trimardeau, giving an unrivaled variety both in size and coloring. Nothing more satisfactory can be imagined than this strain. We can recommend it in the highest terms. Pkt., 25c.; $\frac{1}{8}$ -oz., \$1.00.

Mammoth Parisian. A new strain of Trimardeau pansies, with very showy, handsome flowers, mostly white-ground and five-blotched varieties. Pkt., 10c.; $\frac{1}{8}$ -oz., 40c.

Masterpiece (Germania). Giant curled and ruffled pansies. A new strain of fancy pansies, with enormous flowers, edges of the petals being crimped or undulating, giving the flowers almost the effect of being double. Very beautiful, containing the richest combination of colors ever found in the five-blotched strain of pansies. Pkt., 25c.; $\frac{1}{8}$ -oz., 75c.

PANSY—Continued

Improved Giant Trimardeau. Remarkable for the enormous size of the flowers, which are marked with three large blotches on the lower petals. Pkt., 10c.; $\frac{1}{8}$ -oz., 30c.

Bugnot's Superb Blotched. Flowers of enormous size and circular form; of great substance and velvety texture, each petal having a deeply colored blotch, which runs out in delicate veinings to the edge. The shadings comprise tints of red, bronze, and brown not found in any other mixture. Pkt., 25c.; $\frac{1}{8}$ -oz., 80c.

Cassier's Giant Odier. The largest-flowered class of blotched pansies. Very showy and an especially rich strain of unsurpassed quality. Flowers are all three-blotched or five-blotched on background of very rich colors. Pkt., 25c.; $\frac{1}{8}$ -oz., 75c.

Imperial German. While the flowers of this strain are not quite so large as those of the giant strains offered, they are remarkable for their wonderfully delicate and exquisite coloring, comprising an endless variety of charming shades, so delicate and beautiful it is impossible to describe them. They contain over forty varieties, striped, blotched, bordered, and fringed in rainbow colors, the flowers all being of a rich, velvety texture. Pkt., 10c.; $\frac{1}{8}$ -oz., 20c.

Giant Emperor William. Ultramarine blue with violet eye. Pkt., 10c.; $\frac{1}{8}$ -oz., 40c.

GRASS SEEDS

PIERSON'S PERFECTION LAWN GRASS SEED

The best mixture made for lawns, grass plots, etc. Nothing adds so much to the beauty of a country place as a well-kept, velvety lawn. In order to secure this it is necessary that the proper grasses should be sown. More disappointment results from sowing inferior seed than from any other cause. Our Perfection mixture is composed of the finest American grasses in proper proportions of such kinds as are best adapted for our hot, dry summers, and will form a close, velvety lawn very quickly after being sown. Oats should never be sown with our mixture, as our seed comes up quickly and strong, and is better without them. For new lawns, use four bushels per acre. One quart will sow 300 square feet.

Qt., 20c.; pk., \$1.25; bushel (14 lbs.), \$4.00; measured bushel (21 lbs.), \$6.00; 2 bushels in a bag. Bags, 25c. extra. If sent by mail, 5c. extra per quart must be added for postage.

OUR SPECIAL MIXTURE FOR GOLF LINKS OR "PUTTING-GREENS"

This mixture will be found to be unexcelled, containing the finest grasses, making a close, firm, green and lasting turf. Pk., \$1.75; bushel (21 lbs.), \$6.00.

OUR SPECIAL MIXTURE FOR SHADY LAWNS

A mixture of fine grasses that are best adapted and most suitable for growing in shady places, under trees or close to walls where there is little sun. Qt., 30c.; pk., \$1.75; bushel (21 lbs.), \$6.00. If sent by mail, 5c. extra per quart must be added for postage.

OUR SPECIAL MIXTURE FOR HAY AND PERMANENT PASTURE

Much heavier hay crops can be produced and much better pasturage obtained where a mixture of the best grasses for these different purposes are used than when only one or two sorts are sown, as is very often done. We believe that the mixture offered by us will give particularly heavy crops of hay, and after that, will afford most excellent and luxuriant pasturage, remaining in good condition for a great length of time without the necessity of re-seeding. Our mixture will be found unexcelled for this purpose, and we can recommend it with the greatest confidence. It should be sown at the rate of three bushels per acre, or, if quick results are wanted, a larger quantity can be sown. The thicker the seed is sown, the sooner a fine, close turf will be obtained. Pk., \$1.00; bushel (14 lbs.), \$3.00.

FERTILIZERS

PURE BONE MEAL

Quick acting and immediately available, and for this reason is largely used for mixing in potting soil and for top dressing roses, carnations, and other plants grown under glass; also splendid for garden use. It is made from hard, dry bone, is perfectly pure, entirely free from acid, and can be used with perfect safety in any quantity. We use this largely in our rose soil, and have found it the very best grade of bone that we can use for the purpose.

Bag (167 lbs.), \$5.00; ton, \$42.50.

LAWN DRESSING

Highly concentrated, clean, cheap, for enriching lawns and grass plots. Use at the rate of half a ton per acre.
